

# Rain Paint Magic

The **Parks** Trust  
MILTON KEYNES

Instead of avoiding the rain, get outside and have fun in it! This activity allows you to have fun exploring patterns and colours while getting outdoors and embracing the Great British weather!

## What you'll need:

Powder paint, watercolours, food colouring and/or chalk

A few pieces of paper (watercolour paper preferable but not essential)

Warm, wet weather gear!

## How to create your Rain Paint Magic:

### Step 1

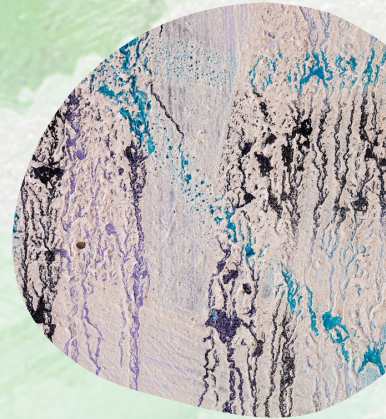

Get wrapped up and head out on your rainy adventure!

### Step 2

Choose a sheltered spot under a tree and get your equipment out.

### Step 3

Place your paper on the floor and add various colours to it. You can mix different types of colour and paint and add them in a pattern or randomly.

### Step 4

Move your paper into the rain and leave it! Watch how the colours mix and move around the paper. You can always add more colours if there are blank spaces.

Go for a wander while you wait for the patterns to form.

### Step 5

Once you are happy with your paper, carefully collect it and take it back to somewhere warm. Leave it to dry. Enjoy your beautiful creation!
