

Autumn Sensory Scavenger Hunt

The Parks Trust
MILTON KEYNES

Lots of people choose to stay inside more when autumn arrives, but there are so many amazing things to see and feel! Go on a wintery adventure, and use your senses. Put a tick in the box when you've completed the action!

Smell some damp moss

Look for nuts and berries on the trees

Hear geese honking as they fly over

Feel the wet mud in your fingers

Smell the earthy soil

Feel the crunch of a fallen leaf

Hear the wind blowing through the trees

Taste the rain on your tongue

Feel the bumpy surface of a pine cone

Look for a mushroom

Can you come up with your own sensory scavenger hunt for your friends?

Draw something else you see
