

Garden Bird Identification Guide

The Parks Trust
MILTON KEYNES

You don't have to go far to see lots of wildlife! Why not put some bird feed in an outside space like your school grounds or garden, and see who comes to visit. Make sure you keep track of everything you identify.

Robin

House sparrow

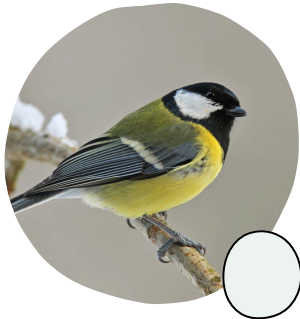

Goldfinch

Greenfinch

Chaffinch

Great tit

Blue tit

Long-tailed tit

Wren

Goldcrest

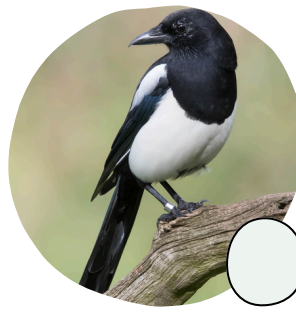

Crow

Jackdaw

Rook

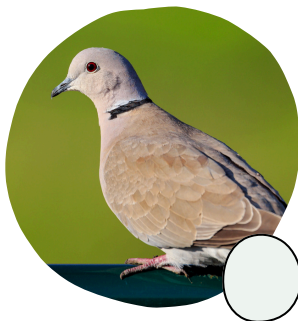

Magpie

Blackbird

Wood pigeon

Collared dove

Starling

Great-spotted woodpecker

Green woodpecker

Top tips:

Birds are most active in the early morning and the early evening. Stay still, quiet and keep your distance for the best results. If you have binoculars, they are recommended for any birds that may be too far away to identify.
